

## CONTENTS

<b>AQUACULTURE</b> .....	5
<i>Honcharova O.V.</i> Physiological and biochemical parameters of the fish organism under conditions of improved growth in recirculation systems under the influence of Southern Ukraine.....	5
<i>Grynevych N.E., Khomiak O.A., Sliusarenko A.O., Zharchynska V.S., Pukalo P. Ya., Kurylas L.V.</i> Modelling of technological processes in aquaculture using computer-aided design and calculation systems.....	19
<i>Olifirenko V.V., Rutta O.V.</i> Site selection, design and economic considerations for the establishment of a bivalve mollusk hatchery.....	30
<b>WATER BIORESOURCES</b> .....	47
<i>Burgaz M.I., Burhaz O.A.</i> The crucian carps role in the formation of water bodies biological resources: on the example of the Odesa region.....	47
<i>Kutishchev P.S., Dyachenko V.V.</i> Nutritional features of the commercial silver carp stock in the Dnipro estuary.....	56
<b>GYDROECOLOGY</b> .....	69
<i>Almashova V.S.</i> Analysis of the assessment of the qualitative ecological state of wetlands of the lower Dniester National Nature Park.....	69
<i>Breus D.S.</i> The quality of drinking water from pump stations and the water supply system of Odesa.....	84
<i>Honcharova O.V., Melnyshenko S.H.</i> Environmental state of water bodies in Southern Ukraine under the influence of russian aggression.....	95
<i>Pichura V.I., Potravka L.O., Bahinskyi O.S.</i> Impact of the war on the state of the Dnipro-Buh estuary system and the Black sea.....	105
<i>Romanchuk M.E., Veslohuzova Z.H.</i> Assessment of the water quality of the Danube river for economic and drinking water use.....	137
<i>Khromykh N.O., Sharamok T.S., Yesipova N.B.</i> Functional changes of <i>Ceratophyllum Demersum</i> plants due to TNT action in a model experiment.....	151
<b>METHODS AND TECHNIQUES</b> .....	164
<i>Kovalov M.M.</i> The influence of the type of phytomatrix on tulip disease resistance when grown in DWC modules.....	164
